SUCCESS STORIES IN THE MIDDLE

“Innatech was extremely pleased to find such a great location for its assembly, warehousing, and distribution operations in the City of Middletown. With close proximity to our manufacturing facility and our customers, the facility will help us remain competitive in our appliance and automotive markets.”

Robert W. Bradin

Government Relations, Innatech

THE KEY POINTS

- The facility’s 65 employees receive, assemble and ship products associated with the appliance and automotive industries.
- Products include control panels for GE appliances and components for the 2008 Chevy Malibu instrument panels.
- The central location between Cincinnati and Dayton allows the company easy access to its customers throughout the Midwest.
