6:10 - Corporate Aviation Future – Nick Brown, Airport Commission member

6:30 - Recreation/Tourism – John Hart, Start Skydiving

6:50 - Break

7:00 - Natural Conflicts between GA, Corporate, and Recreational Aviation Uses – Maria Muia

7:20 - Public Comments – 3 minutes each

7:35 - Policy Discussion – Doug Adkins

- To Finish ALP, New Airport Master Plan, and to plan for capital expenditures, and to solve remaining lease issues with Start Skydiving in the most efficient way for both parties, we need Council to make a policy decision on the long term direction of the airport.
- Two Logical Potential Paths Forward for the Airport
 - Status Quo – Keep costs low and take advantage of opportunities as they present themselves. Jack of all trades, master of none. Least amount of expenditures, oversight, and opportunities.
 - Corporate Development/jobs as the primary focus, Recreation/Tourism and personal GA as secondary focuses. Skydiving moves to the north side, solve remaining lease issues, develop Hook side, education/work force capabilities.
