PROTECT YOUR PROPERTY

HOME

- Test smoke alarms monthly
- Add weather-stripping or caulk to doors and windows
- Inspect and clean furnaces and chimneys annually
- Keep your home $\geq 65^{\circ}\text{F}$ to prevent frozen pipes
- Clear the space around space heaters and don't leave them on while away
- Sign up for local weather emergency alerts

BUSINESS

- Keep sprinkler areas at a minimum of 40°F
- Test all heating system components annually
- Keep all sidewalks clear of snow and ice
- Increase insulation above ceilings or use a roof rake to prevent ice dams
- Inspect roofs annually

Don't be scared. Be Prepared!
